

Wax Dimond Setting Machine

Specifications	Details
Work table structure	Plane table and double rotating axis table structure
Spot drilling speed	9000-12000 drills per hour
Number of bit suction	3 suction Nozzles
Drill Plate Fixing Method	Platform upper side movable strong magnet
Spot drill accuracy	+0.02 mm
Control system	Industrial grade five-axis motion controller
Main operating system	Independent research and development
Driving system	High-end servo
Transmission mode	High precision lead screw guide
Z*Y*Z/A/C Effective strock	300*250*120mm/180° /360°
Working power supply	AC220V/50Hz
Rated voltage	1.3kw
Working air pressure	80psi(0.4Mpa)
Dimensions	780H *250W *1400H(mm)
Net weight	350 kg

Application :

- 3D Wax For Gold
- 3D Wax For Silver
- 3D Wax For Immitation
